## Visualize

Powered by CesiumJS the WebGL map allows you to visualize and explore validated point of interests.

Click on an element to visualize the associated information.

Points can be validated through the administration WebPage, by access the restricted area.

Visualize last: ☐ Day ☐ Week ☒ Month ☐ Year

# GISday

## Manage

In this section the System Administrator can validate the collected Ppis in order to publish them  
To publish a specific point of interest, it is simply required a click on the "publish" button, located near each entry.

☒ Auto Validation

☒ Topo Validation

Total Observations: 21

| ID                            | SCIENTIFIC NAME | QUANTITY | LATITUDE | LONGITUDE | DESCRIPTION |
|-------------------------------|-----------------|----------|----------|-----------|-------------|
| There are no data to publish. |                 |          |          |           |             |

Export INSPIRE-SD
